Introduction

The publishers present herewith the seventh annual edition of Henderson's Saskatoon City Directory. The growth and development of the city has been maintained in a period known for its quietness throughout the Dominion.

This edition embraces the area of Greater Saskatoon, comprising the territory of the city proper, Nutana, Sutherland, Factoria and all subdivisions and environs.

Special attention is directed to the Miscellaneous Section in the front part of the volume, which has been greatly enlarged and for the first time embellished with illustrations of places of interest. This has been compiled from various records and statistics issued in the city and province. The thanks of the publishers are accorded to all assisting in this work. We do not think such a catalogue of information has hitherto appeared in a single volume.

The Classified Section in the back part of the volume, like the Miscellaneous, is so arranged as to be of the greatest value for ready reference. The information in both sections is comprehensive and pertains to everything regarding the City of Saskatoon.

The Advertising Section presents the names of firms and individuals who are making Saskatoon the great city that it is, and who are a power in the industrial and commercial world of Western Canada.

The form of the pages is much the same as last year. A complete list of subdivisions with locations precedes the street directory, and an up-to-date list of blocks, buildings and halls has been printed on a colored sheet and inserted immediately before the A. B. C. section.

The publishers desire to thank their patrons and the general public for the unfailing courtesy shown their representatives, and also to say that they appreciate most thoroughly the confidence which the business men of Saskatoon have always had in them and their work.

City of Saskatoon

That the Canadian West is now sweeping toward a mighty and inevitable destiny as the greatest section of the British Empire is granted by the ablest statesmen and economists of the age.

Now, place your finger on the centre of any map of Western Canada, just where all the railways meet. Study Saskatoon's strategic geographical location, and you will surely concede that Western development must of necessity involve Saskatoon development, just as the growth of the human body involves the growth of the heart.

A Wondrous Unfolding

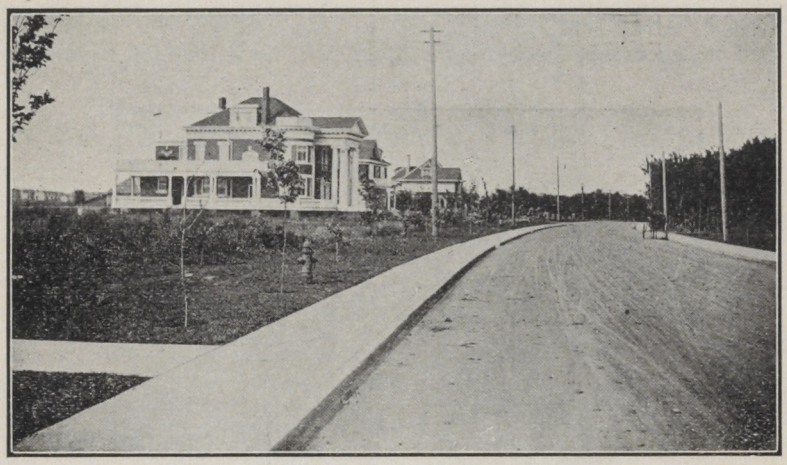
One hundred and thirteen hopeful souls and a few rude shacks huddled together on the bank of the South Saskatchewn River—such

Canada Building, Saskatoon

was Saskatoon in December, 1903; such was the crude and humble embryo from which the splendid city of today with her prosperous population of about 30,000, has arisen, as though by enchantment, in those few, short, intervening years. Think of it—the shack hamlet

of yesterday is now the sole centre of supply for a distributing territory extending to about 48,600 square miles of splendid agricultural country. Within this exclusive territory there are even now over two hundred thriving points on no fewer than 2,225 miles of operating railways. For this reason—which, as a glance at the map will show, is due to the city's central, geographical location, far removed from any other large point—she has for some years past handled the second largest wholesale business in the three Prairie Provinces, being exceeded by Winnipeg alone! Further, the shack hamlet of yesterday now possesses every comfort and convenience typical of all that is modern and thoroughly up-to-date, and in such desirable respects is quite as completely equipped as is any of the larger progressive cities in Eastern Canada.

It seems but yesterday since the wild pea vine and the delicate prairie anemone flourished in extravagant luxuriance where mile upon mile of cement street and sidewalk now streak hither and thither by beautiful homes and imposing business blocks; along streets with their



Saskatchewan Crescent
One of Saskatoon's Residential Sections

splendid stores and bustling throng of busy, happy-looking people—streets where but yesterday the cheeky little gopher peered from the grass at the passing bullock wagon of the pioneer as it jolted along toward that gray ribbon of a prairie trail that led—God knew where—some said to Battleford.

No noise had then been born upon these plains. The silence and the hush dwelt there as virgin as the land. But, the finger of solitude touched men's hearts—drew them together and bound them in a bond of brotherhood which in these easier and more affluent days still holds the citizens of Saskatoon in unwavering unity. That, at least, will never change. Our people have tested and proven its potent magic. All else has changed. To-day, fifteen and a half miles of electric street railway replace the uncouth trails of yesterday, and all lingering traces of a town have been lost forever in the throbbing heart of a truly modern city.

Natural Charm

Saskatoon's natural charm is of a type quite unexpected in the West. To the stranger it comes as a very delightful surprise. The splendid South Saskatchewan river which wends its way through the very heart of the city, is, in itself, a thing of beauty and a joy forever. Its banks are beautifully wooded. The whole lay-out of the city lends itself peculiarly to the picturesque.

Educational

With her central location, remarkable railway facilities and natural attractiveness, it was not remarkable that Saskatoon should have been selected in April, 1909, as the seat of the University of Saskatchewan with its Agricultural College and College Farm, which institutions absorb an area of 1,333 acres, and are planned for the eventual accommodation of about five thousand students. During the past two years, over $1,250,000 have been expended upon buildings, notwithstanding which, the accommodation is already somewhat overtaxed so that a further expenditure of $300,000 this year became absolutely necessary.

Emmanuel College

Located adjacent to the University, two fine new buildings—costing about $100,000—and a cluster of smaller ones, constitute the nuclus of Emmanuel College—the first Anglican Theological College in Saskatchewan.

Presbyterian College

This college also has its site on the University campus. Building operations have already commenced. From $80,000 to $100,000 will be expended this season.

Provincial Normal School

This Provincial institution for the training of first, second and third class and high school teachers, commenced here in August, 1912. Over one hundred students now attend. Courses are, meantime, conducted in the Collegiate Institute, but it is expected that a large and highly modern Normal School building will be arranged for in the near future.

Schools

Within the past seven years, Saskatoon has expended over $1,500,000 on schools, of which there are eleven, not including one of the most imposing Collegiate Institutes in the Dominion. In April, 1914, there were over 3,600 pupils on Saskatoon's school roll; in 1906 there were only 296! Of the last four schools erected, three cost $155,000 each, and the fourth $118,000; while the Mayfair school to be built this year, will involve an expenditure of about $140,000. Saskatoon's educational facilities are of an unusually high order.

Churches

All the leading denominations are represented in Saskatoon, there being no fewer than seventeen places of worship. Other seven fine churches are now under construction at a total cost of about $844,000.

Hospitals

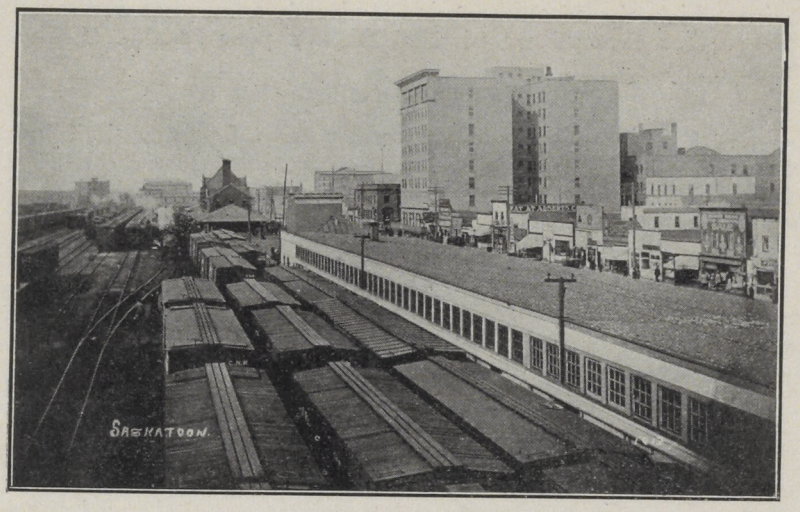
Saskatoon had the first municipally owned and operated hospital in Western Canada. The present fifty-five bed building having be-

come quite inadequate to the requirements of the city and surrounding country, arrangments have been completed for the erection of a new $500,000 institution.

In addition to the above, there is St. Paul's Hospital, conducted by the Grey Nuns—a highly equipped establishment which has done splendid work. $175,000 addition for this hospital was opened last fall, the entire cost of which was defrayed by public subscription.

Railway Facilities

The strategic, central location of the city has not been overlooked by the three great railway companies, which have for some years past made her the centre of remarkable railway construction. The Canadian Pacific, Canadian Northern and Grand Trunk Pacific are all in evidence. Each company has its own steel and concrete bridge spanning the South Saskatchewan River at Saskatoon. Altogether there are



C. N. R. Yards, Saskatoon

four bridges at Saskatoon, while a fifth—a concreted, arched traffic bridge, 1,593.4 ft. long and 65 ft. wide—is now under construction at a cost of over $400,000.

To realize the exceptional character of Saskatoon's railway facilities, it is merely necessary to consult any reliable map of Western Canada.

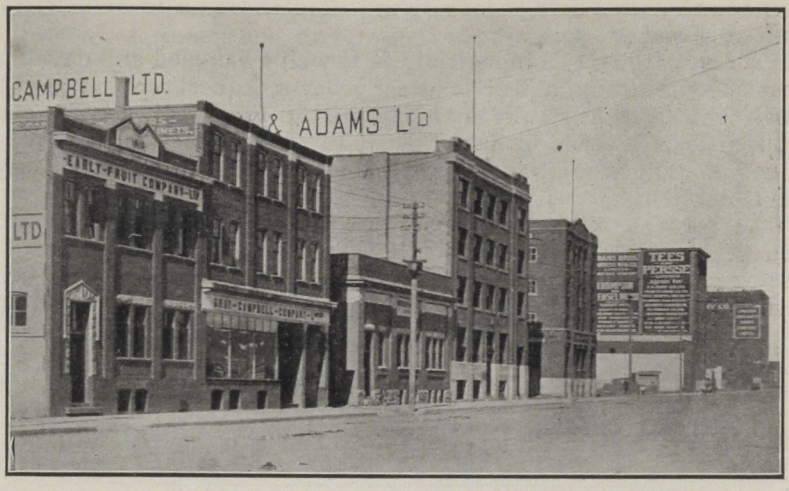
Mail Service

Ten different operating railway outlets radiate from Saskatoon. Over these, thirty passenger trains daily arrive and depart at her three railway stations, while twenty-seven mails are each day received and distributed at her post office.

Wholesale Distributing Territory

A feature which greatly enhances Saskatoon's unique geographical location is that she is far removed from any other large point. Consequently the surrounding territory is undisputedly hers, and she has the railway facilities and distributing freight rates to control it absolutely. In area, this territory extends to over 48,000 square miles, and

embraces more than two hundred thriving points on no fewer than 2,225 miles of operating railways, a distance only 27 miles less than that from Montreal to Calgary per C. P. R.



A Corner of Saskatoon's Wholesale Section

Naturally, the possession of an exclusive territory so vast, fertile and well settled involves an enormous business, and it is not surprising that for some time past, Saskatoon's has been the second largest wholesale distributing business in the three prairie provinces and exceeded by Winnipeg alone.

Industries and Power

Saskatoon's is the cheapest steam generated electric power in Western Canada.

Second Avenue, Saskatoon

Natural Gas

The presence of vast bodies of natural gas in the vicinity of Saskatoon has now been conclusively demonstrated and the City Council are now actively considering its conversion to industrial and domestic uses.

Already, the city's industrial life is well awakened and developing most encouragingly, and it is already beyond question that anything which may be successfully manufactured in the West, may be manufactured to advantage in Saskatoon. In this connection, it is well to remember that Winnipeg is now the fourth largest industrial city in the Dominion.

At present, Saskatoon possesses quite a number of important industries, among which is the sole Western plant of the Quaker Oats Company, of Chicago—while, within the past six months, several others have arranged to locate.

Dominion Interior Elevator

On the 3rd of June, 1913, Saskatoon was selected as the location of the Dominion Government's huge interior elevator, merely the initial unit of which will be of 5,000,000 bushel capacity, costing about

Third Avenue, Saskatoon

$2,000,000, and constructed with a view to indefinite extension. A Sample Market will also be instituted, and a Grain Exchange will follow as a natural sequence.

The milling world will recognize the above as the Dominion Government's endorsation of Saskatoon as a great Grain Growing and Railway Centre.

Industrial League

Within four and a half days, the citizens of Saskatoon subscribed the sum of one million dollars ($1,000,000) toward their industrial league, organized for the encouragement of suitable manufacturing concerns.

Municipal Ownership

The City of Saskatoon owns and operates all her utilities, including Light, Power and Street Car System. An initial eleven and a half miles of the latter commenced operating on 1st January, 1913. Since then about four miles more have been added, making fifteen and a half in all. Almost from the outset the system has shown a profit. Under the thoughtful management of a faithful and energetic city council, it has not been difficult for Saskatoon to demonstrate the advantages of Municipal Ownership.

Waters, Sewers and Sidewalks

Saskatoon enjoys an unlimited supply of splendid water for all purposes, for which reason her fire insurance rate is the lowest in all Saskatchewan. Over forty-four miles of mains are already in use, to which many miles more will be added this season. The City's Sewerage System is of the most modern and approved character, over forty-six miles being now laid. Fifty-four miles of cement sidewalks streak in every direction, and the laying of further extensions is now in full swing. Three and a half miles of street paving has also been done, to which the completion of this season's large programme will materially add.

Newspapers

Another convincing indication of Saskatoon's progressive prosperity is the number and remarkable quality of her newspapers, viz.:—

The Daily Phoenix

The Weekly Phoenix

The Saskatoon Daily Star

The Saturday Press

Agriculture

Needless to say, the phenomenal progress and prosperity above indicated largely resolves itself into a matter of exceptional soil fertility throughout a very extensive tributary territory. There are no better lands than those of Saskatoon's district, and there is no branch of farming that may not be most successfully conducted therein. Apart entirely from the production of the famous hard wheat and magnificent oats, barley and flax, all manner of field crops—including roots, tame grasses and all the valuable legumes, such as alfalfa, etc., thrive splendidly and yield large returns. Catte, horses, sheep, swine and poultry are all earning big returns for the farmer, in consequence of which the popularity of mixed farming has recently shown a phenomenal increase.

Public Spirit

There is another potent factor toward the solid and extraordinary development of Saskatoon, and it is evident always and on every hand—even with the humblest citizen: The best interests of the city is the one dominating ideal to which all questions of personal interest

are subserved as a mere matter of course, and without effort or regret. Sustained by this lofty conception of citizenship, Saskatoon passed safely and sturdily through the vicissitudes of infancy and in a few short years came to be generally termed "The Western Wonder City."

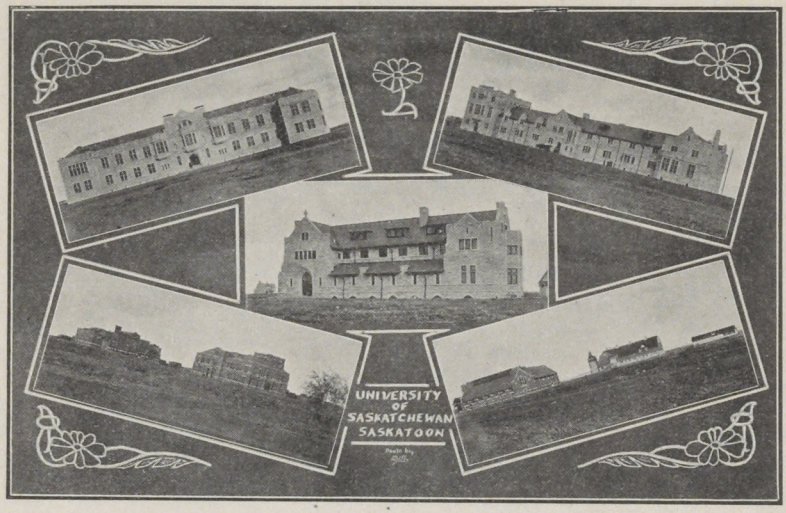
University of Saskatchewan

Nutana

The University is situated on the east side of the south branch of the Saskatchewan river. Its site comprises 1,333 acres. About 300 acres, with frontage of over half a mile on the river, have been set apart for a campus. A portion of the quarter section south of the campus is devoted to plot work, the land being virgin prairie.

A general plan of the campus, making ample provision for future growth, is being prepared. In the preparation of this plan advantage is being taken of the experience of state universities with problems similar to those of this University. In the erection of buildings it was thought wise to begin with a number of small buildings adequate to present needs, but capable of being adapted to special purposes without serious waste and at small cost when the growth of the University requires greater specialization in buildings.



University of Saskatchewan, Saskatoon

The College building is about 220 feet long and 52 feet wide with wings of about 111 feet in length and 30 in width. At the rear is a large hall capable of seating between 500 and 600 people. This building will be used for teaching purposes in Arts and Agriculture. It is located in a position convenient to the Agricutural, Engineering, Horticultural and Dairy buildings, the Stock Pavilion and Farm buildings so that in time it may be devoted exclusively to the College of Agriculture. Near it is placed the first residence for students.

Postal Information

RATES OF POSTAGE

FIRST-CLASS MATTER.

LETTERS

Letters posted in Saskatoon, addressed for delivery in Saskatoon or within the district covered by Letter Carrier Delivery, 1 cent per ounce or fraction thereof.

Letters addressed to places in Canada, Mexico and United States, including Guam, Hawaii, Panama Canal Zone, Phillipine Islands, Porto Rico and Tutuila, 2 cents per ounce or fraction thereof.

Letters addressed to places in Canada must be at least partially prepaid, and those addressed to Mexico and the United States must be prepaid at least a full rate (2c.). **Otherwise they will be sent to the Dead Letter Office.**

Letters addressed to places in Canada and partly prepaid will be forwarded, subject on delivery to double the amount of unpaid postage.

Letters for the United States should bear the name of the State as well as that of the Post Office.

Letters addressed to mere initials, or fictitious names, will not be delivered unless addressed in care of a resident or to some box in the Post Office.

Letters addressed simply to a street number or to a room number in a specified building without the name of a person, firm, etc., may be delivered, provided there is only one household or firm in occupation of the premises indicated; otherwise letters so addressed will be sent to the Dead Letter Office as insufficiently addressed.

Every letter for the city should bear name, street and number, no matter how well known the name may be; otherwise it is an incomplete address, and delivery may be delayed.

The abbreviations St. and Alta. are often so scribbled as to be indistinguishable. The word City, or Saskatoon, should always complete city address.

RE-DIRECTED LETTERS.

Re-directed letters are not liable to any additional postage if handed back to the Post Office with a changed address at the moment of delivery or as soon as possible thereafter, provided always the change in the address does not require the letter to be sent to any place to which the postage rate is higher than was at first payable. In this case the additional postage, if not prepayed, will be collected on delivery.

Re-directed letters should not be dropped into a Post Office Box or Receiver unless additional postage has been put on to carry them to their second destination.

REQUEST LETTERS

Letters from places in Canada, Newfoundland, Mexico and the United States, covered by envelopes, bearing a **request**, either printed or written, that the letters be returned to the sender if not delivered within a certain specified time, will be returned as requested if not delivered in the time stated.

Requests, whether printed or written, on packages of Third or Fourth-class matter, and on transient newspapers for return in case of non-delivery, will be complied with; but a charge will be made for such direct return equal to the original postage charge.

SPECIAL DELIVERY LETTERS

Letters are sent to their City Addresses between 8 a.m. and 7 p.m. daily, except Sunday, bearing, in addition to the usual prepayment of 2 cents an ounce, a "special delivery" Canadian stamp, addressed to the following cities in Canada: Berlin, Brandon, Brantford, Brockville, Calgary, Charlottetown (P.E.I.), Chatham, Ft. William, Edmonton, Fredericton, Galt, Guelph, Halifax, Hamilton, Hull (Que.), Kingston, Lethbridge (Alta.), London, Moncton (N.B.), Montreal, Moose Jaw (Sask.), New Westminster (B. The limit of size for a Private Post Card (Domestic) is 6 in. long by 3⅝ in. wide.

The British Post Office will recognize as entitled to return to this country the reply halves of Canadian Domestic Reply Post Cards upon which the additional 1 cent postage stamps required have been affixed.

For fear of the reply side of a double post card becoming uppermost, enclose it in a small india-rubber ring.

REGISTRATION

Money letters should always be registered.

Every article intended for registration must be handed in at the wicket and a receipt obtained therefor.

The fee on all classes of articles addressed to countries to which matter may be registered is 5 cents.

The sender of a registered article posted in Canada for delivery in Canada, or in any

other Postal Union country, may entitle himself to a certificate as to the disposal of the said article by the Postmaster at the office addressed, on prepayment of an additional fee of 5 cents. All classes of matter may be registered to all destinations in Canada and (with the exception of that sent by parcel post) throughout the Postal Union; and **letters** may be registered to most of the countries not included in the Union.

Senders of registered articles are requested to put their names and addresses in the upper left hand corner of the cover.

The public are reminded that registered letters are only carried on trains that are accompanied by a railway mail clerk. Hence a registered letter and an ordinary letter posted simultaneously will often be received at different times.

In case of the loss in the Postal Service of a registered article posted in Canada for delivery in Canada, the addressee, or, at the request of the addressee, the sender, is entitled to an indemnity, which in no case shall exceed twenty-five dollars, or the actual value of the lost registered article when the same is less than twenty-five dollars, provided no other compensation or reimbursement has been made therefor.

GENERAL POSTAL INFORMATION

A large number of letters reach the Post Office every day which are undeliverable, by reason of the absence of street and number from the address, while serious delays and vexatious errors occur all the time from the same cause. Whether in business or residential districts, "street and number" form an indispensable part of the address of letters. If business men, however well known, have their street and number printed on their stationery, their correspondents avail themselves of the information, and the Post Office and public are both benefited. Delay to the extent of at least one delivery must occur when reference to the City Directory is necessitated.

CITY LETTERS.—Where an addressee's name is in the City Directory, the writer has the same means of completing the address as the post office has, and delay in delivery is avoided.

A street runs sometimes for miles under the same name, and a dozen or more carriers serve its several parts. Where the house number is omitted from the address in such streets, the letter will be returned to writer for amended address, instead of, as heretofore, being tried on every carrier serving that street, and prompter delivery will result. If referred to our Directory Clerks, the wrong person must often be "tried" and time is lost in the same way.

Thinking to save trouble in their own offices, persons mailing circulars, catalogues, etc., in large numbers often address them omitting street and number; thus entailing certain delay in sorting and equally uncertain delivery. Banks and companies posting notices and dividend cheques are constant offenders in this way. In the interest of the senders these will be returned in bulk for better address.

Persons living in the neighborhood of the Post Office sometimes complain that they receive letters no earlier than those who live in the suburbs. It would seem almost unnecessary to state that every carrier begins his walk practically at the same time. The position of a house in the carrier's walk governs the time at which letters are received there. These walks are meant to be covered in one hour, or two, according to district and the number of deliveries made in the day. The hour of the first delivery accords with the arrival of morning trains from the East; and a majority of people object to receiving letters before 8 a.m.

Merchants or others having much mail matter to post at or about 6 p.m., when their offices close, are advised to insist on their messengers carrying the matter to the General Post Office, thus avoiding occasional overfilling of the street letter boxes in the central district.

Persons posting circular notices of meetings, etc., where immediate despatch is of importance, would do well to hand them in at the Post Office with intimation to that effect.

The growing habit of using in an address the fancy title of a house, instead of merely the plain street and number, is a frequent source of error at the sorting cases, where the work has to be done by a rapid glance, and the title of the house happens also to be the name of a post-town.

A Carrier is not required to leave letters at any house where he may be in danger of a vicious dog. The owner must call at the General Delivery, till the dog is tied up or otherwise disposed of.

Many persons telephoning to the Post Office resent the reply that their request must be put in writing. But obvious mischief might result from orders for the disposition of correspondence given by an unrecognized voice.

Unused Postage Stamps not being redeemable by the Department should not be used for the remittance of small sums of money, as Postal Notes have been introduced for that purpose.

A letter once posted becomes the property of the person to whom it is addressed, and must be forwarded according to its direction. On no application, however urgent, can it be delivered back to the writer or to any other person.

The sending of a letter or any communication or document subject to letter postage in an open cover does not in any way diminish its liability to letter rate of postage.

Letters bearing mutilated stamps, or stamps so soiled and defaced as to make it impossible for the sorting clerks to decide whether they have been used before or not will be sent to the Postmaster General for his adjudication.

LETTER CARRIER DELIVERIES

In the majority of residential districts there are two deliveries each week day, **commencing at 8 a.m. and 1.45 p.m. In the central or business district there are four deliveries each week day, commencing at 8 a.m., 10.30 a.m., 1.45 p.m., 5 and p.m.**

DETAILS OF LETTER CARRIER DELIVERY.

All City drop letters must be addressed with Street name and number thereon or same will be returned for better address.

All 2nd, 3rd and 4th class matter must be fully addressed to Street and number or it will be returned for fuller directions.

On week days the street letter boxes (according to location) are searched from nine times a day in the central districts to twice in the outside, except Sunday.

System of Street Names and Numbering

Streets run east and west, odd numbers on west side.

Avenues run north and south, odd numbers on south side.

The townsite has been laid out allowing 18 streets in Nutana, south of the Saskatchewan River, Eighth to Eighteenth Streets being within the Corporation limits, while First Street to Seventh Street lie south of the southern city limits. First street to Eighteenth Street are in Nutana, Nineteenth Street being the first street on the west side of the River. East of the C. N. R. tracks and west of the river streets are numbered from Nineteenth to Twenty-sixth, west of the C. N. R. tracks in Riverdale streets number north from Eleventh to Thirty-third, the northern city limits.

With the Avenues the C. N. R. tracks are the dividing line. Avenues First, Second, Third, Fourth and Fifth running north and south and paralleling the C. N. R. tracks to the east are arranged numerically from the C. N. R. to the Saskatchewan River. West of the C. N. R. Avenues are arranged alphabetically from Avenue A to Avenue P. the western city limits.

In Nutana the street information is taken east from the Saskatchewan River to eastern city limits. On the Avenues north from 8th Street the southern city limits. The system of house numbering adopted by various cities throughout the continent known as the Decimal or Philadelphia system, viz., an even hundred numbers are allotted to each block, the principal advantage of the system is that the number indicates how many blocks distant it is from any given point on a street or avenue.

On the Avenues, which run north and south, a number is allotted for every 12 feet and on streets running east and west, a number is allotted for every 15 feet.

Note—The arrangement in Street and Avenue Directory is in the following order; Alphabetical Streets and Avenues; Avenues A to Z; Numerical Avenues and Streets.

The arrangement by directions is East, West, South and North.

Where the odd and even numbers on an Avenue or Street are separated, the south side (odd numbers) on Avenues will appear first and the west side (odd numbers) will appear first on Streets.
